

- You can now add tasks in EDA and assign them against users in your department and project;
- Create task against file or files and monitor status of tasks;
- You can now also get detailed log of events against documents and tasks;
- You can Copy and move files from one folder to another, as well as between projects in your available departments;
- Generate tabular and graphical reports based on the custom field values in EDA;
- EDA also includes Major performance improvements and bug fixes;
